3. TELEHEALTH CO-PAY RATIO RULE

3.1 In accordance with Meridian administrative directives, all telehealth consultations shall carry a co-pay equal to exactly 40 percent (0.40) of the corresponding plan’s in-person specialist visit co-pay.
3.2 The CAE shall automatically validate and enforce this 40 percent ratio upon claim intake. Any manual override requires written authorization from Revenue Cycle Operations Manager Sarah Jenkins.

4. WORKED EXAMPLE: PARTIALLY MET DEDUCTIBLE CALCULATION

4.1 Scenario Parameters:
* Plan: MERIDIAN-SILVER (Deductible: $1,500.00; Coinsurance: 30%)
* Patient Prior Deductible Met: $1,200.00
* Incoming Claim Allowable Charge: $800.00 (Outpatient specialist procedure, subject to deductible and coinsurance)

4.2 Step-by-Step Adjudication Calculation:

1. Calculate Remaining Deductible:
$$\text{Total Deductible} - \text{Prior Deductible Met} = \text{Remaining Deductible}$$
$$\$1,500.00 - \$1,200.00 = \$300.00$$

2. Apply Allowable Charge to Remaining Deductible:
The incoming claim of $800.00 is first applied against the remaining deductible of $300.00.
* Patient pays toward deductible: $300.00
* Remaining claim balance eligible for coinsurance:
$$\$800.00 - \$300.00 = \$500.00$$

3. Calculate Coinsurance on Balance:
The remaining balance of $500.00 is subject to the MERIDIAN-SILVER coinsurance rate of 30%.
$$\$500.00 \times 0.30 = \$150.00$$
* Patient pays toward coinsurance: $150.00

4. Calculate Total Patient Share for Claim:
$$\text{Deductible Portion} + \text{Coinsurance Portion} = \text{Total Patient Share}$$
$$\$300.00 + \$150.00 = \$450.00$$

5. Final Adjudication Result:
* Patient Responsibility: $450.00
* Plan Responsibility: $350.00
* Updated Year-to-Date Deductible Met: $1,500.00 (Deductible is now fully satisfied for the remainder of the calendar year).
